

ARTIFICIAL CHRISTMAS TREE BAVARIAN FIR PREMIUM PU

Elegance and nature – this is the way we can describe the new addition to our 2018 FairyTrees collection: the Bavarian Fir. Lush, dense branches are arranged in a conical shape, which resembles wild fir trees of central and southern Europe.

MATERIAL

Christmas tree needles were made of two materials. PVC needles are long and soft. PU needles are rigid and realistic. Using both materials allowed us to create a premium Christmas tree.

STORAGE

An artificial Christmas tree from FairyTrees should be stored in a special bag or carton and in a room with an ambient temperature of up to 25°C (77°F), such as is in a basement or a garage.
